

GFI's Mx12 makes  
spot color inks on  
demand while you  
decrease your overall  
ink spend

### Mix Instantly

Automatic spot color mixing increases your speed and accuracy, while reducing prep-time.

### Intuitive Software

GFI Innovations EvolvePro™ Software provides easy-to-use controls with a highly graphical platform.

### Dispense Accurately

Made with 18 positions for 8-lb spot color ink cartridges that dispense to an accuracy level of +/- .001 pounds (0.5 gr)
